Data Sheet Fujitsu ESPRIMO E900 E85+ Desktop PC

Your Desktop PC Without Any Compromises

Fujitsu ESPRIMO E900 PCs give you the absolute highest PC manageability, performance and expandability. The optional Zero Noise PCs help you focus on your work and with 94% efficient power supply with 0-Watt technology, you'll also save on energy costs. The use of identical components ensures perfect infrastructure compatibility. At retirement, Fujitsu's distinctive EraseDisk function wipes your data securely.

Small form factor PC

Flexible desktop solution whatever the space required

Less than 13 liters volume, can be positioned vertically and horizontally

Green technology

Fujitsu's contribution to environmental protection for the continued existence of our planet

 Halogen-free printed circuit of mainboard and power supply, sophisticated product concept for the entire lifecycle

Quiet

Innovative hardware design, optimized cooling concept

■ Pleasant working environment due to an extremely quiet system

System management

Simple system administration for complex IT infrastructures

■ Intel® vPro™ technology (depending on processor) and Fujitsu DeskView manageability tools

Energy efficiency

Low power consumption and low costs, without any loss in performance

Sophisticated technology, low energy-consuming processors, up to 86% efficient power supply and enhanced power management settings
