

## HP COMPAQ 4400 SERIES

Configured as a power-packed ultraportable notebook or convertible tablet.

### HP recommends Windows Vista® Business

Configured as an ultraportable notebook or convertible tablet, the versatile HP Compaq 4400 series adapts to the way you work.

#### **Versatile and productive without weighing you down**

- Intel® Core™2 Duo processors<sup>5</sup> allow simultaneous use of multiple applications so you accomplish more in less time.
- Ultra-light, full performance design with a 12.1-inch diagonal XGA display.
- The convertible tablet PC offers a 12.1-inch diagonal XGA display with 160-degree wide viewing angle, active digitizer and specially-treated, sparkle-free glass to enhance durability and provide a comfortable writing surface. An optional outdoor viewable display is available on select tablet models to increase your productivity in outdoor or bright environments.<sup>4</sup>

#### **Power and connectivity that goes with you**

- Impressive standard battery life. Get even longer lasting power with HP's selection of extended-life batteries.<sup>4</sup>
- A variety of wired and wireless<sup>2</sup> communication solutions help you stay connected.

#### **HP Professional Innovations**

A suite of value-added security, ease-of-use, and reliability features that help differentiate HP Business Notebooks from the rest.

- **Security** – Solutions to help protect your notebook, data, and network connections.
  - HP ProtectTools is a portfolio of security features designed to address critical aspects of IT security and includes: TPM Embedded Security Chip, HP Biometric Fingerprint Sensor, and optional Smart Card Reader<sup>4</sup>.
- **Ease-of-use** – Intuitive and power-saving features that boost productivity.
  - Ambient Light Sensor automatically adjusts display brightness to maximize battery life.
  - HP Fast Charge Technology charges the primary battery up to 90% in 90 minutes, then charges secondary battery to keep you running.<sup>6</sup>
  - Compatible with all of the common notebook accessories<sup>4</sup> shared across HP's Business Notebook line.
- **Reliability** – Built to perform and proven to last.
  - HP Mobile Data Protection System 3D detects motion and helps protect data from shock and vibration.
  - Full magnesium alloy enclosure provides durability for this ultra-mobile design..
  - In-mold Lamination offers a scratch-resistant surface that helps protect the keyboard deck.

<b>Warranty</b>	Three-year standard parts and labor limited warranty, depending on country (upgrades available <sup>4</sup> ), one-year limited warranty on primary battery and pen	

1. Above 3 GB, all memory may not be available due to system resource requirements. 2. Wireless access point required and is not included. Availability of public wireless access points limited. Wireless Internet use requires separately purchased Internet service contract. 3. The term "10/100/1000" or "Gigabit" Ethernet indicates compliance with IEEE standard 802.3ab for Gigabit Ethernet, and does not connote actual operating speed of 1 Gb/sec. For high speed transmission, connection to a Gigabit Ethernet server and network infrastructure is required. 4. Sold separately or as an optional feature. 5. Dual Core is a new technology designed to improve performance of certain software products. Check with software provider to determine suitability. Not all customers or software applications will necessarily benefit from use of this technology. 6. Fast Charge Technology recharges your battery up to 90% within 90 minutes when the system is off. Fast Charge Technology does not apply to 9 cell primary and 12 cell Ultra Capacity batteries. 7. Dual Channel is only supported when the system is configured with DDR2 symmetric memory (i.e. 2x256). 8. For hard drives, GB = 1 billion bytes. Actual formatted capacity is less. Up to 8-GB of memory is reserved for system recovery software. 9. The new HP Smart A/C Adapters will not be backwards compatible to prior generation notebooks. However, a dongle will be available to support existing notebooks in the field. Older HP adapters will not be forward compatible to the 2006 HP Business Notebooks. 10. Certain Windows Vista product features require advanced or additional hardware. See <http://www.microsoft.com/windowsvista/getready/hardwarereqs.mspx> and <http://www.microsoft.com/windowsvista/getready/capable.mspx> for details. Windows Vista Upgrade Advisor can help you determine which features of Windows Vista will run on your computer.
